Sir:

In reply to the Office Action mailed March 22, 2006 requesting restriction to a single invention in the above-referenced patent application, Applicants hereby elect Group IV, including claims 19-24. This election is made without traverse.

This election is made without prejudice to or disclaimer of the other claims included in this case. Applicants reserve the right to file divisional patent applications claiming priority to this application and to the various applications from which this application claims priority for the non-elected claims at a later date. Applicants also reserve the right to rejoinder.

The claims in this case are amended herein to put them in better condition for examination and early allowance. Support for the amendment to claim 19 is found in the first full paragraph on page 9 of the specification.
